

Honors General Chemistry Lecture & Laboratory

Are you interested in an enhanced experience in General Chemistry?

- Learn how to think like a scientist
- In-depth study of topics customized to class interest
- Emphasis on building critical thinking & analytical problem solving skills
- Small class size gives you an individualized experience

If that sounds good, then ***Honors General Chemistry*** may be for you!

Fall 2020: CHEM 2081 Honors Gen Chem 1 Lecture M/W 3:30-4:45p
CHEM 2088 Honors Gen Chem 1 Lab T or Th 1:00-4:50p

Requirements:

Honors General Chemistry is open to any well qualified student who wishes to participate!

- This course has heightened expectations & fast-paced coursework: You must have a good working knowledge of pre-college chemistry
- AP/IB Chemistry, or 2 years of high school chemistry, or recent college-level chemistry experience
- One or more of the following: Chemistry major, Chemistry minor, interest in Chemistry, BA/BS-MD program*, University Honors & Leadership program*
- Prospective students must take a short assessment test prior to enrolling in the course. The assessment covers topics from the first three chapters of any typical General Chemistry textbook.

*Assessment NOT required for BA/BS-MD & UHL students

To schedule your assessment or for more information on the CU Denver Honors General Chemistry courses, please contact Dr. Margaret Bruehl: margaret.bruehl@ucdenver.edu
