

Different students prefer different styles of teaching and instructors may or may not be able to provide different methods of instruction based on their circumstances. You can use this grid to help in your planning but also understand that instructor's syllabus will be the final word on the structure of the course and as circumstances change, instructors may need to adapt their syllabus during the semester.

	Lectures (synchronous or asynchronous)	Assessment (synchronous or asynchronous)	Office Hours (Zoom or email)	TA/ATA/LA
Foundations	asynchronous	asynchronous	Both	LA
Core Chemistry	asynchronous	asynchronous	Both	None
Nutrition	asynchronous	Both	Both	None
Gen Chem Lecture	asynchronous	asynchronous	Both	TA/ATA/LA: Grader
Gen Chem Lab	synchronous	Some of each (final exam is synchronous)	Email	TA, Assistant TA
Organic Chem Lecture	synchronous	synchronous		
Organic Chem Lab	synchronous	Synchronous, Asynchronous prelab quizzes	Zoom + email	LA, Assistant TA in labs
Biochemistry	synchronous	synchronous	synchronous	

*For synchronous classes you must be available to meet the entire scheduled time of the class. For asynchronous classes IF the syllabus allows you may not be required to be present during class time. For synchronous assessment, all quizzes and exams will occur during scheduled class time. For synchronous assessment, all quizzes and exams will occur during class time.
