From CU Denver to Graduate School

Location: SI 1111

TIME: 12:30pm- 1:30pm
DATE: FRIDAY, MARCH 20th

The application process for a STEM graduate program may seem intimidating and overwhelming. Join Dr. Kristine M. Sikora Assistant, Dean and Director of Recruitment and Marketing and Dr. Scott Reed, Graduate Advisor as they discuss STEM graduate program offerings and an overview of the application process. To help provide a student's prospective, the panel will also include alumni and current graduate students. Students will have the opportunity to ask questions within a Q&A session, engage in casual conversations with the panelist and alumni over light snacks.

Life After CU Denver Month offers a series of career-related seminars for undergraduate and graduate STEM students. For more information please contact Dr. Marta K. Maron at marta.maron@ucdenver.edu.
