Esri Educational Site License Program

Esri Educational Site Licenses are designed to maximize productivity and minimize cost in educational institutions where GIS is required by multiple departments. A Site License provides a convenient alternative to establishing multiple Teaching and Research Lab Kits or Teaching Lab Paks in individual departments. A Site License can cover a single campus, multiple campuses, a district, or statewide systems.

An Educational Site License allows an institution to use Esri software throughout the organization for teaching, research, or administrative* purposes for an annual fee. This fee includes software updates and Technical Support Services during the term of the license.

All Educational Site Licenses require a signed contract that specifies the campus location(s) covered by the license. For more details and pricing for your institution, contact the Esri Education Program at educationinfo@esri.com.

* Permitted use of some products is restricted under the Site License Agreement. See the Agreement for details.

Educational Site License Benefits

The Educational Site License program provides educational institutions the right to use select Esri products as follows:
- Products in Tables 1A, 1B and 1C may be deployed in unlimited quantities for the following purposes:
  - Table 1A: teaching, research, or administrative purposes
  - Table 1B: teaching or research purposes. (Administrative use requires a separate license)
  - Table 1C: teaching purposes only. (Research and Administrative uses require a separate license.)
- Products in Table 2 may be deployed in limited quantities for teaching and research purposes. The number of Named Users is specified as part of the subscription Plan Level or otherwise noted in the Site License agreement. (Administrative use requires a separate license.)

Commercial use of any products is explicitly prohibited under the terms of the Educational Site License Agreement.

The Educational Site License also provides a Virtual Campus Annual User License for Web-based training, and a variable number of Technical Support Contacts and complimentary Esri User Conference and Education GIS Conference registrations (quantity specified in the Contract.)

Table 1A. Unlimited quantities. Teaching, Research and Administrative Use Permitted

Product	Comments
ArcGIS for Desktop	Single Use and Concurrent Use licenses
ArcGIS for Desktop Advanced	
ArcGIS for Desktop Standard	
ArcGIS for Desktop Basic	
Data and Maps for ArcGIS	
ArcGIS for Desktop Extensions	
ArcGIS 3D Analyst for Desktop	
ArcGIS Data Reviewer for Desktop	
ArcGIS Geostatistical Analyst for Desktop	
ArcGIS Network Analyst for Desktop	
ArcGIS Publisher for Desktop	
ArcGIS Schematics for Desktop	
ArcGIS Spatial Analyst for Desktop	
ArcGIS Tracking Analyst for Desktop	
ArcGIS Workflow Manager for Desktop	
ArcGIS for Mobile	
Apps for Smartphones and Tablets (Android, iOS)	
ArcGIS for Windows Mobile	
ArcGIS for Server	
ArcGIS for Server Enterprise - Advanced	
ArcGIS for Server Workgroup - Advanced	Available for Windows only
Esri Data and Maps for Server	
ArcGIS for Server Extensions	
ArcGIS 3D Analyst for Server	
ArcGIS Data Reviewer for Server	Available for Windows only
ArcGIS GeoEvent Processor for Server	
ArcGIS Geostatistical Analyst for Server	
ArcGIS Image Extension for Server	
ArcGIS Network Analyst for Server	
ArcGIS Schematics for Server	Available for Windows only
ArcGIS Spatial Analyst for Server	
ArcGIS Workflow Manager for Server	Available for Windows only
ArcGIS ArcPad Extension for Server	Available for Windows Only
ArcGIS Web Mapping APIs	Available for Flex, JavaScript, Silverlight

Table 1A (cont). Unlimited quantities. Teaching, Research and Administrative Use Permitted

Product	Comments
Esri Mapping and Charting Solutions	
ArcGIS for Maritime: Bathymetry	
ArcGIS for Maritime: Charting	
Esri for Aviation: Charting	
Esri Defense Mapping	
Esri Production Mapping	
Esri CityEngine Advanced	Single Use and Concurrent Use licenses; available for Win64, Win32, Mac OS, Linux
Esri Data Products	Entire U.S, all geographies (State, County, Tract, Block group, Place, CBSA, DMA, ZIP Code). Available to U.S. customers only.
Esri Updated Demographics	
Census 2010
