Checklist for MS in Environmental Sciences Thesis Track

39 Credit Hours

Specialization: Advisor:

All of the following:			NOTES
ENVS 6002	Research Topics in Environmental Science 3	3	
GEOG 5265	Sustainability in Resources Management 3	3	
	OR		
GEOG 5440	Science, Policy and the Environment 3	3	
GEOG 6750	Research Design 3	3	
ENVS 6800	Community-Based Research Practicum 3	3	
GEOG 6950	Master's Thesis Preparation and Writing 3	3	
24 Hours of Elective Courses			

PHYSICAL/ECOLOGICAL SCIENCE COURSES

<u>For the General MS Degree with No Specialization Option</u>: at least 4 courses, with at least 1 course in the physical sciences and 1 course in the ecological sciences, 1 of these courses must be field/lab-based.

<u>For the MS Degree with a Specialization Option</u>: at least 1 course, which must be field/lab-based if a field/lab-based class was not taken as part of the concentration.

Courses considered field/lab courses are marked with an asterisk (*).

ADVISING NOTES

- Students should fill out and submit all relevant department forms for their files. Importantly, all petitions for course substitutions and identification of where courses fit as electives, with the subsequent approval/denial, should be submitted to this file.
- By the end of the first semester, each student should identify and declare a graduate advisor in the area of the student's interests or specialization. Students should file the Graduate Student – Faculty Advisor form by the first week of the second semester.
- Additionally, by the end of the first semester, students should determine whether or not s/he is
 pursuing the thesis or non-thesis option. If pursuing the thesis option, students should begin
 work under the guidance of their graduate advisor (see above) to develop a thesis topic and
 identify a thesis committee. The Graduate Student Faculty Committee form is due to the
 department by the third semester of the student's degree program.
- Many of the electives have pre-requisites; students must have met these requirements in order to take the course.
- Students may transfer up to 9 hours of approved graduate-level credit into the program. These courses must be approved by the Graduate Director and they may not replace core courses.
- Students may count up to 6-credit hours of Independent Study, with a maximum of 3-credit hours per Independent Study toward elective credit in the degree program as approved by the Graduate Director. No more than 3 credit hours of independent study may be taken with the same instructor, and they may not be taken in the same term.

Last Updated: 05.24.2019

Curriculum for Fall 2018 forward.

University of Colorado Denver

- Students may count up to 6-credit hours of internship in total, but only 3-credit hours per internship (two sponsorships may be sponsored by the same professor, but they may not be the same internship or project). Please note that a maximum of 6 total credit hours of internship and independent study, combined, may apply.
- Students may not count 4000-level courses towards electives in the program; this may be petitioned to the Graduate Committee in exceptional cases.
- Students may take a maximum of 2 online courses, or petition to the Graduate Committee in exceptional cases to apply more than two online courses.
- Students may enroll in thesis preparation and writing hours only after submission of the signed committee form (see above), which requires approval of the thesis proposal.
- Students will not receive a grade for thesis preparation and writing hours until the thesis is successfully defended.
- Students must follow the graduate school deadlines for submission of paperwork for the
 graduation application, comprehensive exam, and any other deadlines, in addition to
 departmental guidelines and deadlines. Links to these can be found on the GES/MS website:
 http://www.ucdenver.edu/academics/colleges/CLAS/Departments/ges/Programs/MasterofScience/Pages/Forms.aspx
