2022 Global Health and Disasters Course

October 10 – 14, 2022: Global Health Section

October 17 – 21, 2022: Pediatrics in Disasters Course

This in-person course prepares its participants for international experiences and future global health work. The interactive training incorporates readings, lectures, small group problem-based learning exercises, technical skill sessions, and a disaster simulation exercise.

Course lectures and activities are presented by faculty with extensive experience in global health and disaster response.
