

# BRYAN C. WALLACE, MPH

3320 Oneida Street, Denver CO 80207 513-502-2234 bryan.wallace@cuanschutz.edu

---

Goal-driven, self-motivated, analytical Senior Research Project Manager dedicated to innovative design, implementation and evaluation of cutting-edge research focused on developing best practices. Expertise in managing multi-site, federally funded studies, in addition to effective collaborations with leaders in the field nationwide and local teams. Exceptional talents in all aspects of qualitative, quantitative and large volume studies from beginning to completion.

## AREAS OF EXPERTISE

- EPIC data management – screening and entering research data
- Ensuring teams maintain updated Good Clinical Practice (GCP) and other trainings for federally-funded studies with NIH and AHRQ
- Authoring and publishing study results in scientific journals such as MDM, Pace, and AHJ
- Presenting abstracts at conferences such as SMDM
- Videography shooting and editing skills, including Top 10 Abstracts
- Proficient at AGILE and PMP style project management
- Asana, REDCap, and other data management software
- Consistent positive relationships with coworkers, both bosses and fellow employees
- Engaged in work community-building events
- Positive and rapport-building interactions with patients and participants
- Research Design & Development
- Community & Team Collaborations
- Grant Preparation & Submission
- Literature Abstract & Review
- Consent and Survey Development
- Project Implementation & Management
- Assisting new employees with onboarding, including regulatory procedures and understanding of relevant medical knowledge
- Complex research management, including regulatory, financial, protocol, and execution processes
- Program Development & Management
- Multicultural Communication
- Analytical Interpretation of Data
- COMIRB, Joint Commission and HIPAA Compliant
- Proficient at EPIC, SASS, REDCap, Microsoft Office, Access, Sharepoint,
- Proficient at Adobe Suite including Premiere Pro, Shotcut

## PROFESSIONAL EXPERIENCE

UNIVERSITY OF COLORADO DENVER, AURORA, CO  
*Senior Research Project Manager, August 2017 – Current*

Managed multi-million dollar, federally-funded National Institutes for Health study with 7 sites across the country; develop psychometrically-sound surveys and study start-up materials; organize national conference calls and in-person meetings; initiate regulatory documents and committees with local and foreign institutional review boards.

### Responsibilities:

- Manage 4 projects with combined annual budget of \$1,820,614
- Develop and maintain regulatory for all projects
- Coordinate and facilitate local and national meetings
- Respond to national policy impacts from research (2018 CMS mandate for ICDs)
- Publish first-author papers (3), poster presentations (3), and other papers
- Provide film direction, editing, and completion for nationally recognized decision aids and video projects, including:
  - Top 10 video abstract for EKG
  - Consult for Agency for Healthcare Research & Quality
  - Internationally-used decision aids for defibrillators

CHILDREN'S HOSPITAL COLORADO, AURORA, CO  
*Research Project Manager, May 2015 – August 2017*

Managed 6 multi-million dollar, nationally funded research study sites for CARE project (funded by Centers for Medicare & Medicaid Services), developed consents, survey, administrative procedures; conducted COMIRB and sponsor reports, communication and submissions; maintained regulatory documents and database.

### Accomplishments:

- Supervised, developed, and trained team of four. Provided hospital-wide training on research protocols
- Impacted national policy regarding children with medical complexities
- Developed several innovative ideas that led to changes in national protocols
- Enrolled 1824 consented participants into study
- Received Letter of Commendation from Sponsor for Creativity, Flexibility and Outstanding Work

*Research Coordinator, September 2011 – May 2015*

Oversaw multiple research studies in inpatient and outpatient setting from initiating development to close-out; collaborated with teams for facilitation of studies; maintained regulatory documents and prepared sponsor communications and updates.

Accomplishments:

- Significantly increased funding for Neurology Research by starting annual fundraising event

NATIONWIDE CHILDREN'S HOSPITAL, COLUMBUS, OH

*Clinical Studies Coordinator, October 2009 – September 2011*

Developed and managed national study for smoking cessation with teenagers, as well as managed memory and impulsivity studies.

Accomplishments:

- Supervised, developed, and trained team of three. Provided hospital-wide training on research protocols
- Traveled and worked with teenagers of diverse backgrounds in rural and urban areas
- Authored paper in scientific journal to distribute results

W.K. KELLOGG BIOLOGICAL RESEARCH STATION, BATTLE CREEK, MI

*Research Technician, May 2008 – October 2009*

Led research sample collection for measuring natural carbon fallout in lakes and rivers while keeping organized data measurement and entry with spectrometer, fluorometer, and assays.

Accomplishments:

- Finished data collection samples earlier than expected
- Completed data entry

## EDUCATION

UNIVERSITY OF COLORADO DENVER, DENVER, CO – COMPLETED DECEMBER 2021

*MASTERS OF PUBLIC HEALTH IN COMMUNITY & BEHAVIORAL HEALTH SCIENCES*

CALVIN COLLEGE, GRAND RAPIDS, MI – COMPLETED MAY 2009

*BACHELORS OF SCIENCE IN PSYCHOLOGY & BIOLOGY*
