

CU HCM9.2 Pay Group Configuration

Navigation: Set Up HCM > Product Related > Payroll for North America > Payroll Processing Controls > Pay Group Table

The new CU Paygroup setup has been revised with the 9.2 upgrade to enhance payroll processing by taking advantage of defaults and controls provided by paygroups. Paygroups provide logical groups of employees with common requirements such as employee type, pay frequency, benefit program and earnings. *In addition, the paygroup will provide the high level of eligibility for customized leave accrual processing.
