Rubric for Evaluating Colorado Teachers

Effective teachers in the state of Colorado have the knowledge, skills and commitments needed to provide excellent and equitable learning opportunities and growth for all students. They strive to support growth and development, close achievement gaps and to prepare diverse student populations for postsecondary and workforce success (See Appendix E). Effective teachers facilitate mastery of content and skill development and employ and adjust evidence-based strategies and approaches for students who are not achieving mastery and students who need acceleration. They also develop in students the skills, interests and abilities necessary to be lifelong learners, as well as for democratic and civic participation. Effective teachers communicate high expectations to students and their families and utilize diverse strategies to engage them in a mutually supportive teaching and learning environment. Because effective teachers understand that the work of ensuring meaningful learning opportunities for all students cannot happen in isolation, they engage in collaboration, continuous reflection, on-going learning and leadership within the profession.

### QUALITY STANDARD I

Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

**ELEMENT A:** Teachers provide instruction that is aligned with the Colorado Academic Standards; their district’s organized plan of instruction; and the individual needs of their students.

**THE TEACHER uses lesson plans that reflect:**
- Opportunities to review prior learning.
- Instructional objectives appropriate for students.
- Connections to specific learning objectives and approved curriculum.

**THE TEACHER implements lesson plans based on:**
- Student needs.
- Colorado Academic Standards.
- District’s plan of instruction.

**THE TEACHER:**
- Collaborates with other school staff to vertically and horizontally align, articulate and deliver the approved curriculum.

**STUDENTS:**
- Interact with the rigorous and challenging content.
- Perform at a level consistent with or above expectations.

### ELEMENT B: Teachers demonstrate knowledge of student literacy development in reading, writing, speaking and listening.

*This section describes professional practices that should be demonstrated by ALL TEACHERS, regardless of grade level or subject taught.*

**THE TEACHER:**
- Demonstrates an understanding of literacy content and skills.
  - Makes complex reading accessible to students by:
    - Adjusting content to students’ skill levels.
    - Integrating literacy skills and knowledge into lessons.
    - Providing relevant content that addresses students’ interests.

**THE TEACHER**
- Provides instructional support that enhances students’:
  - Critical thinking and reasoning.
  - Information literacy.
  - Literacy skill development.

**STUDENTS**
- Meet or exceed expectations for:
  - Oral communication.
  - Written communication.
  - Critical thinking.
  - Problem solving skills.
  - Literacy skills.

**STUDENTS:**
- Apply literacy skills to understand complex materials.
**ELEMENT B:** Teachers demonstrate knowledge of student literacy development in reading, writing, speaking and listening.

This section describes professional practices that should be demonstrated by **ELEMENTARY TEACHERS** responsible for teaching language arts and/or reading.

ELEMENT C: Teachers demonstrate knowledge of mathematics and understand how to promote student development in numbers and operations, algebra, geometry and measurement and data analysis and probability.

This section describes professional practices that should be demonstrated by ALL TEACHERS, regardless of grade level or subject taught.

THE TEACHER:
- Encourages students to make math connections across content.
- Emphasizes to students why they need to learn math content and skills.
- Uses instructional strategies that require students to apply and transfer mathematical knowledge to different content areas.

... and

THE TEACHER:
- Emphasizes interdisciplinary connections to math.
- Helps students understand mathematics as a discipline.
- Provides a balance of teaching for conceptual understanding and teaching for procedural fluency.

STUDENTS:
- Share ideas and solutions to challenging problems.
- Use the language of math to talk about what they are doing.
- Interpret mathematical information in ways that make it relevant to their learning.
- Recognize when they make procedural errors and take steps to correct them.

ELEMENT C: Teachers demonstrate knowledge of mathematics and understand how to promote student development in numbers and operations, algebra, geometry and measurement and data analysis and probability.

This section describes professional practices that should be demonstrated by TEACHERS responsible for teaching math.

THE TEACHER focuses math instruction beyond:
- Recall of facts.
- Development of computational skills.
- Math as a series of rote procedures.

Models:
- Appropriate mathematical communication.
- A variety of mathematical practices.

THE TEACHER presents concepts:
- In a sequence.
- In a manner appropriate to students’ age and grade.
- Helps students understand mathematics as a discipline.
- Provides a balance of teaching for conceptual understanding and teaching for procedural fluency.
- Models mathematical thinking.

THE TEACHER establishes an effective mathematics environment by:
- Challenging students to think deeply about the problems.
- Requiring students to explain their solutions.
- Posing questions that stimulate students’ curiosity and encourage them to investigate further.
- Actively engaging students in doing math.
- Using real-world examples for problems whenever possible.

STUDENTS:
- Solve problems in a variety of ways.
- Demonstrate mathematical thinking by explaining their thinking to each other and to their teacher.

**ELEMENT D:** Teachers demonstrate knowledge of the content, central concepts, tools of inquiry, appropriate evidence-based instructional practices and specialized character of the disciplines being taught.

**THE TEACHER:**
- Breaks down concepts into instructional parts and teaches each part using appropriate, effective strategies and/or tools.
- Uses instructional materials that are accurate and appropriate for the lesson being taught.
- Employs a variety of instructional strategies to address student needs.

**THE TEACHER** provides explanations of content that are:
- Accurate.
- Clear.
- Concise.
- Comprehensive.

**THE TEACHER** engages students in:
- A variety of explanations and multiple representations of concepts and ideas.
- A variety of inquiry methods to explore new ideas and theories.

**STUDENTS:**
- Develop a variety of explanations and multiple representations of concepts.
- Build on the skills and knowledge learned in the classroom to engage in more complex concepts, ideas and theories.

Use a variety of inquiry tools and strategies to:
- Learn content.
- Understand central concepts.
- Answer complex questions.
- Problem solve.

**ELEMENT E:** Teachers develop lessons that reflect the interconnectedness of content areas/disciplines.

**THE TEACHER:**
- Emphasizes key concepts and connects them to other powerful ideas within the content area.
- Connects lessons to other disciplines and/or content areas.

**THE TEACHER** implements instructional strategies to ensure that instruction:
- Articulates content and interdisciplinary connections.
- Integrates literacy skills across content areas.

**THE TEACHER** clarifies and elaborates on interdisciplinary connections for students:
- Employs instructional strategies that include literacy, numeracy and language development across content areas.

**STUDENTS:**
- Make connections between other disciplines and/or content areas and the current lesson.
- Apply literacy skills across academic content areas.
- Apply math skills across academic content areas.

**STUDENTS** routine:
- Choose challenging tasks and instructional materials.
- Apply newly learned content skills to unique situations and different disciplines.
- Discuss ideas and content that are intellectually challenging to them.
