

CU Denver students, faculty, and staff and their family members who are at least 16 years old are eligible to be vaccinated at the Auraria Campus' 5th Street Garage. Each CU Denver affiliate can define who constitutes a family member, so long as that person is at least 16 years old.

The Auraria Campus' 5th Street Garage (located at 650 Walnut St.) is operating on an open scheduling model that works as follows:

- **The number of appointment slots will vary each week.**
- **To schedule your appointment, go to bitly.com/CUDenverVaccine or scan the QR code below.**
- **Open scheduling is offered on a first-come, first-served basis.**
- **In recent weeks, we have been successful in obtaining the Pfizer vaccine.** We expect to have a regular supply of Pfizer going forward.
- **We encourage everyone to get vaccinated at their earliest opportunity.** You can receive the vaccine at any vaccine distribution site in the state by making an appointment:

Ball Arena Vaccination Site
Dick Sporting Goods Vaccination Site
Other Community Vaccination Site

Having a vaccinated community will directly improve campus safety, enabling a robust in-person fall semester.

Thank you for getting vaccinated as soon as possible!
